TONFIDENTIAL'

- 4. RUMANIA: US orders "passive opposition" to arrest of employees--The State Department has requested that General Schuyler. US Delegate ACC Bucharest, in the event of forceful attempts by Rumanian or Soviet authorities to arrest employees now in his protective custody, confine his resistance to "passive opposition (short of armed conflict) necessary to compel such authorities to force entry and seize the employees under protest." (Schuyler had previously stated that he would "use all the force at his disposal" to prevent seizure of a Rumanian employee for whom the Rumanian Government has issued a warrant of arrest.)
- 5. USSR: Propaganda offensive on Turkish Kurds--Ambassador Smith reports that the Soviets appear to be opening a new propaganda offensive for the autonomy of the Kurds in Turkey. Smith (a) doubts that the offensive will make much progress, since the Kurds have proved "not wholly dependable instruments of Soviet policy," and (b) suggests that the real aims of the offensive are to renew the war of nerves against Turkey and to raise "a smoke screen over issues at the CFM which may embarrass the USSR."

25X6A

7. FRANCE: Bidault's views on the political situation--Caffery has been told by a "reliable official" of Bidault's belief that (a) the Assembly will elect him to the Presidency: (b) the Socialists will refuse to participate in a Government which excludes the Communists; and (c) his immediate task therefore is to "find a formula" which will induce participation by the Communists (who have indicated their opposition to an MRP President). Bidault thinks that the Communists may agree to join the Government under "certain conditions" related to the distribution of Cabinet posts.

Caffery doubts that Bideult can be elected over Communist opposition, and states that insuperable "labor and economic difficulties" would confront a Government opposed by the Communists.

COAPTIBENTIAL"

8. THE NETHERLANDS: Catholic still unable to form Cabinet—
Embassy The Hague reports that Beel, leader of the Catholic Party's liberal wing, continues to encounter "serious difficulties" in the formation of a Cabinet. (Beel has been trying to form a Cabinet since 23 May.) The principal obstacle is the refusal of "reactionary elements" in Beel's own party to approve certain economic reforms which are necessary to obtain Labor Party participation in the Government.

25X6A

10. DENMARK: <u>US weather station on Greenland</u>—The State Department has informed <u>US Consul Godthaab</u> that the Danish Government has "orally consented" to the establishment by the US V/eather Bureau of a small civilian weather station under joint US-Danish operation.

FAR EAST

11. N.E.I.: China suggests joint pressure on Dutch--The Chinese Foreign Minister has told Embassy Nanking that, in his opinion, there is no chance of a peaceful settlement of the future status of the N.E.I. unless pressure is brought to bear on the Dutch. The Foreign Minister believes that the situation is deteriorating rapidly and suggests that the powers interested in that area, including the US, China, Australia and the UK, urge the Dutch to accept outside mediation if direct negotiation fails to effect a settlement. The Chinese Government is debating whether to refer the entire N.E.I. situation to the United Nations.

THE AMERICAS

- 12. ARGENTINA: Von der Becke's return imminent -- According to Messersmith, Peron is disturbed over Brazilian reaction to Von der Becke's alleged proposals that the US make Argentina the "arsenal of Latin America." Peron has indicated to his Foreign Minister the desirability of Von der Becke's immediate return and has directed a public repudiation of the proposals.
- 13. ECUADOR: New Galapagos agreement developing -- Ambassador Scotten reports that the Ecuadoran Government wishes that the Galapagos base be formally returned on 1 July as planned, but that US forces remain there pending completion of a new agreement.
- 14. PARAGUAY: President's position unstable -- Ambassador Beaulac reports that, as a result of the recent attempted revolt, (a) President Morinigo has lost prestige and (b) resentment among Army personnel will probably be exploited by opposition factions.
